SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using React.js, Java, and Spring Boot. Experienced in developing dashboards, transaction systems, and distributed backend services. Skilled in REST API development, WebSocket-based real-time communication, and strong problem-solving skills with experience building responsive user interfaces.

SKILLS:

- **Tools and Platforms:** Git, GitHub, VS Code, STS, Postman
- **Programming Languages:** Java, JavaScript, Python
- **Frontend Technologies:** React.js, HTML5, CSS3, Bootstrap
- **Backend Technologies:** Spring Boot, REST APIs, JDBC, Hibernate
- **Databases:** SQLite, MySql
- **Web Technologies:** REST APIs, WebSockets, JSON, API Integration,

EXPERIENCE:

Java Full Stack Developer – Avyaya E-We Power Solutions Pvt. Ltd, Hyderabad, India

Sept 2024 - Current

- Designed and implemented **RESTful APIs** using Spring Boot for EV charging management, dashboard functionality, and transaction processing.
- Built responsive and reusable **React.js** components for dashboards and integrated them with backend APIs.
- Implemented **real-time communication using WebSockets** for EV charging station interactions based on **OCPP 1.6**.
- Worked with **Hibernate, JPA, and MySQL** to design database entities, write SQL queries, and manage application data efficiently.
- Integrated frontend and backend modules, performed API testing, debugging, and resolved application issues to improve system reliability.
- Applied **Core Java** concepts including **OOP, Collections, Exception Handling**, and followed clean coding practices while developing scalable applications.

EDUCATION:

CCBP Intensive 4.0 Program

OCT 2023

Full Stack Web Development

(CCBP Intensive Is an Industry Ready Certification program focused on full-stack web development that provides training through an immersive hands-on and reverse-engineered curriculum).

Trinity College Of Engineering & Technology

JULY 2023

Bachelor of Technology

PROJECTS:

Dental Hospital Website | React.js, HTML5, CSS3, JavaScript | [Live Demo](#)

- Developed a responsive **Dental Hospital website** using **React.js, HTML5, CSS3, and JavaScript** to showcase dental services, doctor information, and hospital details.
- Built reusable React components and implemented client-side routing to create a scalable, maintainable, and user-friendly application.
- Designed a responsive and modern user interface with seamless navigation, ensuring compatibility across desktops, tablets, and mobile devices.
- Integrated contact and appointment sections to improve patient engagement and provide easy access to hospital services.
- Deployed the application using **Vercel**, enabling fast, reliable, and accessible online hosting..

App Store | HTML5, CSS3, JavaScript, React js | [Live Demo](#)

- Developed a dynamic React-based App Store with features for filtering applications by category and real-time search functionality, enhancing user experience and engagement
- Implemented reusable components and state management in React to create a scalable and maintainable codebase.
- Designed a responsive and visually appealing user interface using CSS, ensuring compatibility across devices and screen sizes.

Ancons Website | HTML5, CSS3, Bootstrap | [Live Demo](#)

- Developed a responsive corporate website using **HTML5, CSS3, and Bootstrap** to present company services and business information.
- Utilized Bootstrap's grid system and components to build a mobile-first, responsive interface compatible with multiple screen sizes.
